# LIKAR

  
Rechtsanwälte

LIKAR Law Offices" were founded by Arno F. Likar in 2005 and see itself as a dynamic, modern, internationally-active Business Law Firm, specialized on Company Law, Structuring and Conducting of (international) Real Estate and M&A transactions, Data Protection and Litigation/Arbitration.

LIKAR primarily advice small and medium sized companies, international active undertakings, incorporated foundations, financial service providers at a supreme level, agriculturists, professional persons, sportsmen and artists, landlords and tenants, incorporated societies as well as (wealthy) individuals on every specific legal issue at full length.

With the presence of academic and business consultants plus the interdisciplinary cooperation with economical advisers, management consultants, chartered accountants, notaries and financing-experts LIKAR are able to offer comprehensive solutions for extensive projects (one-stop-shop).

The eminent and presiding goal is to represent the best interests and to provide lasting benefits to their clients. Thus, with maximum personal commitment, reliability and expertise they give optimal consideration to their clients' individual needs and flexibly meet their changing requirements.

Strategic future-oriented deliberations, prevention instead of escalation and absolute confidentiality have top priority for LIKAR in the law practice. Every case is seen through the eyes of their clients and their commercial or private concerns are optimally realized.

LIKAR's activities reach well beyond Austrian borders: They advise and support their Austrian clients in their engagements abroad, especially in Slovenia and Croatia, Germany, Russia and USA. In larger cross border transactions they cooperate with well-known business law firms as well as with local counsels. However, the sole contract responsibility remains with "LIKAR Law Offices".
